App Lab: from Sketch to Linux to AI, all in one place

The new, all-in-one development environment designed to redefine how you build applications across embedded systems, Linux, and edge AI.

[LEARN MORE](#)

jects to Life with Arduino Software

Arduino IDE 2.3.10

[Release notes](#)

The new major release of the Arduino IDE is powerful! In addition to a more modern editor interface it features autocompletion, code navigation, and a debugger. For more details, check the [Arduino IDE 2.0](#) release notes.

Windows Win 10 or newer (64-bit)

Nightly Builds

Download a preview of the incoming release to test updated features and bugfixes.

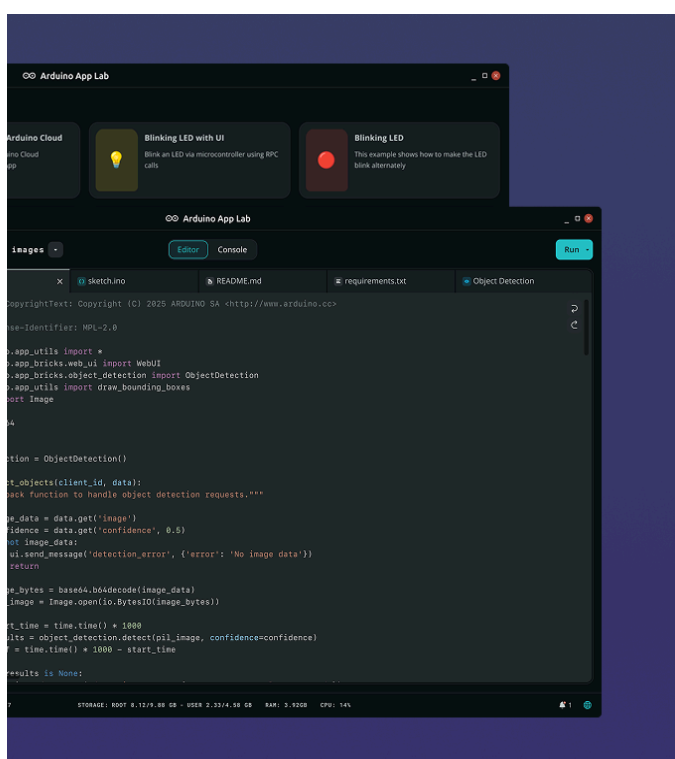

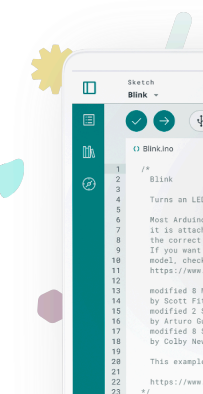

The Arduino IDE 2.0 is open source and its source code is hosted on GitHub.

of the Arduino IDE.

Work with Arduino Cloud Editor

online. Whether you're at home or on the go, code, upload and monitor your code anytime from your browser **for free**.

LEARN MORE

Arduino App Lab 0.8.0

A powerful visual environment for managing and combining prebuilt modules, called Bricks, with a board's behavior with ease. App Lab supports integration with the Arduino IDE and Python, giving you full control the way you prefer.

Windows (10/11), NSIS installer

The Arduino App lab is Open Source under terms of **GPL 3.0** available [here](#).

Upload to your Arduino UNO Q with Flasher CLI.

Arduino PLC IDE 1.1.0

Release notes

Linux operating system images tailored for Ventuno Q boards. Installing one of these images on a board with a complete, ready-to-use IDE, step-by-step guides and more details, [check the images documentation](#).

Program using IEC 61131-3 languages and run them through Arduino PLC IDE! Configure easily and get quick no code fieldbus support, thanks to the wide set of debugging tools. [Arduino PLC IDE documentation](#).

[DOWNLOAD FOR WINDOWS](#)

Win 10

A command-line interface that integrates Arduino IDE, allowing you to build, manage libraries and boards, and more, in a consistent environment.

Arduino Lab for MicroPy

An experimental lightweight editor development environment that supports connecting a board, uploading code, and includes an interactive REPL shell for real-time interaction.

[Windows](#)

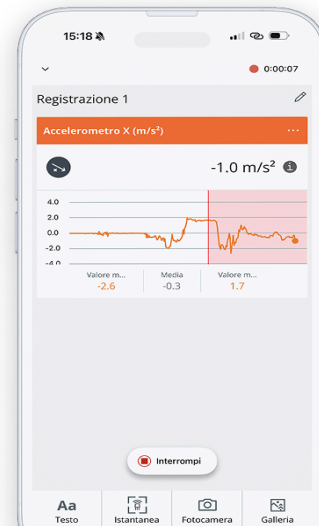

Arduino IDE on Chromebook

Run Arduino IDE online, save your sketches in the cloud, and have your Arduino board connected to your device. Work seamlessly with Arduino electronics and a always-up-to-date environment. All the features are automatically included, and new Arduino boards are added to the box.

IoT Remote

A powerful companion for Arduino Cloud - simply access, monitor and control your dashboards with a few screen taps.

Terms of service

By downloading the software from this page, you agree to the specified terms.

The Arduino software is provided to you "as is" and we make no express or implied warranties whatsoever with respect to its functionality, operability, or use, including, without limitation, any implied warranties of warranties of merchantability, fitness for a particular purpose, or infringement.
